Stroly – The Universal Car Seat Carrier

Stroly was invented by a mom who saw the need for an easy, compact way to carry an infant car seat. It is a universal car seat carrier with the ability to collapse like a camping chair, making transporting your car seat a breeze. No more lugging the infant carrier or having to store and unfold a bulky travel system. Stroly is easy to use. Just set the car seat in the seat opening, latch the safety strap and away you go! stroly.com

“Simple Acts: The Busy Family’s Guide to Giving Back”

By Natalie Silverstein; Gryphon House, 2019

MUST READ

Beyond the day-to-day grind lies a bigger challenge for parents: figuring out how to raise compassionate, generous, civic-minded children. In “Simple Acts: The Busy Family’s Guide to Giving Back,” Natalie Silverstein, the New York volunteer coordinator of Doing Good Together, offers hundreds of practical ideas – from visiting the elderly to helping clean the playground – for incorporating service and the spirit of giving into your family life. The book is both a call to action and a hands-on resource showing parents how to impart good values while helping those in need.

Wearable Silent Beacon Device Offers Moms Security

Now, more than ever, it's important for moms to have a safety plan for life's unexpected emergencies. Silent Beacon is a wearable, wireless panic-button device that connects to smartphones, tablets and other compatible Bluetooth devices. Unlike other safety devices, with one button push the Beacon can place a call to 911 while simultaneously alerting up to 6 additional contacts with a text, email and live tracking GPS location – so you can use the Beacon to talk to emergency responders while also letting your loved ones know you need help immediately. silentbeacon.com
